

REMARKS

Claims 1-20 are pending in the application and were rejected. Claim 1 has been amended herein. In view of the amendment to the claims and the following remarks, reconsideration of the application is respectfully requested.

1. The Examiner suggested removal of the term "capable of" from claim 1. Applicant has accordingly amended claim 1 to replace the two instances of "capable of" with the positive recitation "configured for." No new matter has been added by this amendment.

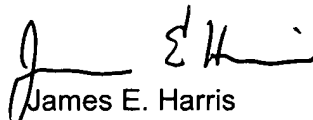

2. Claims 1-20 were provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 8-19 of copending Application No. 10/068,418. Applicant notes that this copending application issued on January 17, 2006, as U.S. Patent No. 6,988,162.

Applicant submits herewith a terminal disclaimer meeting the provisions of 37 C.F.R. §1.321(c) to overcome the nonstatutory obviousness-type double patenting rejection.

Conclusion

Applicant respectfully requests that the rejections of claims 1-32 be withdrawn for the reasons presented above, and that the application be allowed in present form.

Respectfully submitted,
